Template documentation

This template's **initial visibility** currently defaults to **collapsed**, meaning that it is hidden apart from its title bar.

To change this template's initial visibility, the `|state=` parameter may be used:

- `{{Philosophy topics|state=expanded}}` will show the template expanded, i.e. fully visible.
- `{{Philosophy topics|state=autocollapse}}` will show the template autocollapsed, i.e. if there is another collapsible item on the page (a navbox, sidebar, or table with the collapsible attribute), it is hidden apart from its title bar, but if not, it is fully visible.

Collapsible groups and sections option

This template includes collapsible groups/sections. When it first appears, one of these groups/sections may be set to be visible ("expanded") while the others remain hidden ("collapsed") apart from their titlebars. To achieve this, include the parameter `|name` where *name* is one of the following words that identify the groups/sections (omit any speech or quotation marks):

branches • schools • positions • regions/lists/miscellaneous

For example: `{{Philosophy topics |branches}}`
